NUMBER 37

CRECCELIUS BILL.

Governor Signs Bill, Which Renders the Sale or Purchase of Pooled Wheat, Tobacco and Other Products.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:
Section 1. That section 3 of an act entitled an act permitting persons to combine or pool their crops of wheat, tobacco and other products and sell same as a whole and making contracts in pursuance thereof valid, approved March 1, 1906, be and the same is hereby amended and re-enacted so as to read as follows:

Such persons so entering into such an agreement or contract as is set out in the foregoing sections are hereby permitted to select an agent or agents through or by or with whom said parties so entering into such agreement may classify, grade, store, hold, sell, or dispose of said crop, or any of them, and said agent or agents shall have the right to take, receive, hold, store, classify, grade, sell, or dispose of said crop so placed in said agreement, for the purpose of accomplishing the object of such combination or agreement between such principals, and contracts and agreements entered into by such agent or agents for the purpose of classifying, grading, storing, holding, selling or disposing of said crop, combined, united or pooled, either in parcel or as a whole, are hereby permitted, and shall not, because of any such combination or purpose of such original agreement of such principals so entering into said combination, or of such agent or agents, be declared illegal or invalid. All contracts heretofore made by any person or persons for the purpose set out in the foregoing sections are hereby declared valid, if otherwise legally binding on the parties. To prevent any breach or violation of any contract made for the purpose set out in the foregoing sections a restraining order and writ of injunction may be issued by proper officer, as prescribed in the civil code of practice.

For any breach or violation of any contract entered into for the purposes set out in the foregoing sections, the injured party may recover the damages sustained by him by reason of such violation of such contract of the person violating the same, and also of any person who shall induce or persuade another to violate such contract, which damages shall include the reasonable expense and attorney fees incurred by the injured party in prosecuting an action to recover such damages, or to prevent a violation of such contract, if the party complaining shall succeed in doing so, which may be recovered in the same action or original action. Said persons who so selected as herein provided shall have the sole right to sell said crop so pooled or combined, and it shall be unlawful for any owner of such crop to sell or dispose of same and for any person knowingly to purchase the same without the written consent of such agent and upon conviction thereof he or they shall be fined in any sum or amount not exceeding two hundred and fifty dollars for each offense to be fixed by the jury in their discretion.

Section 2. Whereas, many crops of tobacco and other products have been combined and pooled in this State under contract and agreement entered into for the purpose set out in the above section, an emergency is now declared to exist which requires that this act should and shall take effect from and after its passage and approval by the Governor.

REWARDS OFFERED FOR "NIGHT RIDERS"

Governor Willson Includes Advance Information of Raids in \$500 Offer.

Rewards of \$500 for information in advance of any intended violence by "night riders" were offered by Governor Willson. He also offers a reward of \$500 for the apprehension and conviction of any two or more persons who have banded together for the purpose of intimidating, alarming, disturbing or injuring any person, or destroying tobacco barns, warehouses, or tobacco plants; scraping, salting or tramping beds; burning residue of tobacco, corn or other crops; poisoning cattle; writing and posting warning notes or sending intimidating letters.

He specifies particularly that these rewards will be paid for the arrest of the persons poisoning the cattle of R. M. Squires, of Fayette county, and those who burned the barns of George C. Grady and Mrs. Elizabeth Pepper, and those persons who fired at the residence of James Glassin, of Woodford county.

Governor Willson calls upon every citizen to "defend his fireside, his liberty and his property against the night riders by obeying the first law of nature, the highest duty of citizenship."

Wanted—50 Men and Women.
W. S. Lloyd, the enterprising druggist, is advertising today for fifty men and women to take advantage of the special half price offer he is making on Dr. Howard's celebrated specific for the cure of constipation and dyspepsia, and get a fifty cent package at half price, 25 cents.

So positive is he of the remarkable power of this specific to cure these diseases, as well as sick headache and liver troubles, that he agrees to refund the money to any customer whom this medicine does not quickly relieve and cure.

With Dr. Howard's specific at hand, you can eat what you want and have no fear of ill consequences. It strengthens the stomach, gives perfect digestion, regulates the bowels, creates an appetite and makes life worth the living.

This is an unusual opportunity to obtain 60 doses of the best medicine ever made for half its regular price, with the personal guarantee of a well known business man to refund the money if it does not give satisfaction. 38-40

The right will triumph.

REPUBLICANS

REQUEST PARDON OF POWERS.

Legislators Call on the Governor, Who Answers to Answer.

Nearly all of the Republican members of the House and Senate marched in a body to the office of the Governor and plead for the pardon of Caleb Powers. They all favored Powers being set free. The Republicans of the Eleventh district want him to run for Congress and that he cannot very well run when in jail. Governor Willson did not express himself in any way.

Bourbon Turkeys.

Mrs. Eliza Sonnenmaker, Gladys, Ky., says: "My neighbors have all lost their turkeys. I have eighty head of fine Bourbon Turkeys. I have young Bourbon Poultry twice a week and have not lost a one." Sold and guaranteed by W. S. Lloyd, druggist.

FINEST TRAIN IN THE WORLD.

The finest train in the world is the Kaiser's. It cost \$1,000,000 and took three years to build it. In the twelve sumptuous saloons are two nursery coaches, a gymnasium, a music room and a drawing room furnished with oil paintings and statuary. The treasure room, with its two safes, is burglar-proof.

DO NOT RESORT TO FORCE IF YOU WISH TO PERSUADE A MAN TO THINK AS YOU DO.

False Deputy U. S. Marshal Is Sentenced.

Earl Heiser, who, playing the part of a United States Deputy Marshal from Cleveland, caused the arrest of a number of railway employees at Galion and Crestline, Lima, O., was sentenced to six years in the penitentiary by Judge Quail. After making his arrests and handcuffing his prisoners, Heiser would deliberately rob them.

WILL NOT RUN.
John W. Yerkes, of Washington, D. C., emphatically denies that he is or will be a candidate for re-election as Republican National Committeeman.

GENERAL FEELING OPTIMISTIC

Bankers Sanguine Business Will be Refreshed by Bill's Passage.

There was a general feeling of optimism in business and financial circles as the result of the passage by the Legislature of the bill which makes trust estate taxable at the home of the beneficiary only.

Bankers are sanguine that money will flow more freely, and all business is refreshed. Trust estates now here will not be withdrawn, and other will be attracted.

Within the last few weeks, a decided improvement in business has been manifested. A leading banker said that there was really money for all moderate purposes, and reserve funds show increases.

There is ample evidence of restored confidence. Financial institutions have rarely been put to such a test, and those which weathered the storm, enjoy a fullness of confidence that may not have been theirs before.—Lexington Herald.

SURRENDER?

"I shall raise no tobacco this year, but my farm is for sale. I am ready to leave Kentucky, never to return."

This is the statement of a tobacco planter in Woodford county. It is hardly a good advertisement of real estate, yet it is an advertisement of land for sale in one of the richest counties in the Bluegrass region.

The "Bluegrass" has been the inspiration of the poet, the planter and the orator. The consolations and compensations of life within its boundaries have been the theme of writers of romance and of travelers. The boast of the Kentuckian has been that the Shenandoah was but a remnant left over when the Creator made "God's Country" and set down on the other side of the mountains as a sample of the promised land.—Courier-Journal.

UNCLE SAM

APPEALED TO.

Grover Calls on District Attorney.

Now is the time when the doctors get busy, and the patent medicine manufacturers reap the harvest, unless great care is taken to dress warmly and keep the feet dry. This is the advice of an old eminent authority, who says that Rheumatism and Kidney trouble weather is here, and also tells what to do in case of an attack.

Get from any good prescription pharmacy one-half ounce Hui Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Mix by shaking in a bottle, and take a teaspoonful after meals and at bedtime.

Just try this simple, home made mixture at the first sign of Rheumatism, or if your back aches or you feel that the kidneys are not acting just right. This is said to be a splendid kidney regulator, and almost certain remedy for all forms of Rheumatism, which is caused by uric acid in the blood, which the kidneys fail to filter out. Any one can easily prepare this at home and at small cost.

Druggists in this town and vicinity, when shown the prescription, stated that they can either supply these ingredients, or, if our readers prefer, they will compound the mixture for them.

Some Kentuckians have some faults.

KEEPS THEM SAFE.

J. Frank Wyatt, Fredonia, Ky., says: "I never have less than four hundred legs. My neighbors' legs have died all around me. I have been doing nice work with Bourbon Hog cholera remedy and it has kept them safe from disease."

Sold and guaranteed by W. S. Lloyd, druggist.

Night riders burned the home of Henry Ellis, nine miles from Shellerville. Mr. Ellis was called out of the house and made a prisoner while the torch was applied. He was preparing to raise a crop of tobacco.

YES, TO YOU.

The U. S. Postoffice Department has made a new ruling, requiring all publishers of newspapers to exact the pay in advance for all subscribers whose papers are carried in the mails at the second-class rate, or one cent per pound. Otherwise the postage rate would be prohibitory. All publishers are given a limited time in which to adjust their subscription list to the new ruling. Therefore all our subscribers are requested to at once pay up in advance, else when the time limit expires we shall be compelled to stop sending the paper except to those who have paid in advance.

The report sent out through the press that Pennsylvania would yield her claims on Senator Knox for the Presidency has been corrected. Pennsylvania is for Senator Knox so long as his name is before the National Convention.

The temperance question lost out in the Legislature just closed. Neither party can claim the kick temperance got. They are about even in honors.

The leaders of the Anti-Saloon League did it, and the chit among anti-saloon leaders is about as follows: Collins must go. Youn has gone.

In the future we would advise that wise, level-headed men be chosen to lead. The temperance question is a moral issue, a'nt not to be ignored, and if we would obtain satisfactory, helpful enactments, cranks must be kept way back."

RECEIVED THE AXE.

The tuberculosis bill enacted by the Legislature received the Governor's veto for the lack of fund which would be required to make the law effective. Our wisest men sometimes make the greatest errors.

In this action of the Governor, as we see it, he has fallen into error by vetoing this measure. The sick need immediate attention, and while the educational measure is very important, it is more important to care for this loathsome, contagious malady. Better would it have been to have given preference to the tuberculosis measure, and to have allowed the educational bill to have waited.

MURDERED BY NIGHT RIDERS.

Nicholas County Farmer Called to His Door and Shot Down.

HAD PLANTED A TOBACCO BED.

On Friday night soon after midnight about 75 masked and armed men, coming in three bands, met at a certain crossroads near Oakland Mills in Nicholas county and proceeded to the home of Hiram Hedges who lives six miles northwest of Carlisle.

His wife died about 18 months ago; leaving six children, the babe now about 2 years old. A few months ago he married again.

He is rated a poor man, but owns 400 acres of land.

The family was aroused by the throwing of rocks against the house.

His wife's story.

"We could hear the tramping of horses and shouts in the road. Voices at the door were calling upon my husband to come out."

"Seizing his gun, Mr. Hedges went to the front door, and followed. 'What do you want?' he asked; 'We want you,' was the answer, and they called him vile names."

"Turning to me, he said: 'I would shoot, only there are so many of them.' 'Don't shoot,' I begged, 'for they will kill every one of us.' Then he brought back the gun and returned to the door empty-handed."

"Get your mattock and come out here," they ordered.

"I am not dressed," he replied.

"If you don't get on your clothes quick and come out of there we'll dynamite your house," one said.

PLAIDS WITH MURDERS.

"Then my husband began to plead, 'I am a poor man,' he said, 'but I want to do what is right, and if you will go away I promise you that in the morning I will destroy the bed I have sown and will not raise a plant of tobacco this year.'

"Or, if you want to, destroy the bed; it is right behind you in the hollow—back of the barn."

"No, we have got some medicine out here that you have got to take," they replied.

"He had the door open about six inches, and the masked men were at the front gate, ten steps away. 'I can't come. I cannot leave my wife and little children,' he said.

"Then we'll come after you, one said, and several came up the walk."

"Don't come in here, gentlemen. I will do." Then came the report of the shotgun. He was standing with his hand uplifted.

"With the report, he clasped his hands over his stomach and staggered past me, falling unconscious in the next room."

He did not speak again. The funeral service was held on Sunday afternoon and was largely attended.

In the Legislative race in Mason the nominee, Mr. Shanklin, is an enthusiastic Equity man. His majority was near 1500.

Easter Shoes.

The J. & M. low shoes in tans, gun metals, wax calf, patent leather and vici kid have strong points that no other shoes contain. First of all, J. & M. low shoes are made on low lasts at great expense. The fit of the ankles is the proof of that J. & M. shoes are hand-lasted at an extra expense of 20c on the pair. Their shape-holding qualities

prove this. J. & M. buy the best selected skins, examine them and then cut one pair of uppers from the best part of that hide, as there is only one good pair of uppers to the hide. This is proven by the fact that both shoes in a pair of J. & M.'s is good, not one flaky and the other perfect. The balance of this hide is then sold to the makers of cheaper grades. There are other reasons, too, why J. & M.'s are better, but life is short and space here is valuable. Accept the truth—they are best. The complete line is here. HE BLAMED THE GOVERNMENT.

Unobliging Man Saw No Reason for Putting Himself Out.

"Say," remarked the post office clerk who was off duty, as he watched a friend affix two stamps to the corner of an envelope, "why don't you put those stamps on horizontally instead of vertically? Don't you know you can get a lot of work for stamps? If you put them inside beside each other instead of outside, each other? We always have to make two strokes when canceling vertically pasted stamps by hand, and they don't work well through the stamping machine."

"Is that so?" queried his friend, as he took another envelope and proceeded to affix two stamps to it in a vertical position. "Then, by the great horn spoon, who doesn't the government sell its stamps at a premium? Look at the price of these. I have 20 cents' worth of two-cent stamps and they come to me in vertical lines. If I buy five two's I get them attached on the bottom of the other. Do you think I'm going to spend a fortune of tearing each stamp off just to please a government clerk by pasting them side by side? Guess again."

ANCIENT AND MODERN FICTION.

Really Little Difference in the Methods of Writers.

The historian Freeman once said: "Never let a man die at the end of a chapter." The modern serial, or comic strip, seems to like them of pausing at the very bottom of an absorbing event. We consider a long serial one of considerable length; yet in France, in 1610, the first two parts of the *Asatre*, one of the most popular of all novels, were published four days apart before the third part, and several more in advance of the fourth and fifth parts.

About the same time flourished Mille de Scudery, memorable as the author of the first romance of any note written by instalments novels of a length unknown to the readers of today. Every story was originally issued in batches of small octavos, sometimes amounting to a score or so. She has been described as "the most illustrious writer of fiction that the world has ever known."

The same Seventeenth Century, says Harper's Weekly, illustrates, again, the willingness of French writers to sacrifice the plot to the reader. "To get a man to be wished to consult a friend on the death of his wife. By the time the poem was finished, the gentleman had been consulted, remarried, and was himself dead!"

Mr. Toy.

William H. Helmback of Allentown, Pa., an expert breeder of fancy fishes, has recently sold a lot of Japanese fringetails and some Chinese fantails for \$10 each. Several of the fringetails, with bodies less than three inches long, are worth \$100 each.

The parent stock was imported from the Orient, but Mr. Helmback has succeeded in raising about 500 of the fish in an elaborate hatchery he built adjoining his home. The fish, he adds, are very sensitive to temperature, require patience and care. The fish must be kept and bred in still water, which is supplied with oxygen by means of odd plants procured chiefly from China. The breeding of these tiny fish, which in single specimens are worth \$5 a pair, is said to be the acme of piscatorial culture. A well stocked five gallon aquarium is worth about \$150.

Their Favorite Mottoes.

Many well-known men have favorite mottoes which they endeavor to live up to. Some of them, however, of them are particularly applicable to their professions. "Speech is silver, silence is golden" is the maxim which Sir George Lewis, the famous lawyer, always bears in mind. Prof. John Fisher's very appropriate motto; while Sir John Fisher adopts the significant words: "The frontiers of England are the coasts of the enemy." John Burns is very fond of the motto: "The world is my country and to do good is my religion." The British premier gives the text of St. Paul as his motto: "All things are lawful unto me, but all things are not expedient."

A True Friend.

A true friend will share his faults, a sowing we often hear, but a true friend, if he is wise in the knowledge of human nature, will tell his virtues. The fact is that in this busy world of ours, with its keen struggle and sharp competition, it is necessary to be bold and sure faults to be brought to face to face with our mistakes and failures so often that we sometimes lose hope and courage.

Whoever has a word of honest advice, however, will find that he holds something which is of great value, and hasten to pay it. The word of blame may be a goal, but the word of hearty commendation will be "something to live up to" through many a trying hour.

The Parisian Visitor.

What a Banker.

"It is heartening, to observe how the conscience of one banker in North Dakota serves him. He has refused to collect sight drafts sent him by liquor houses in other States, and returns them with a note stating that the liquor business is illegal in North Dakota and that he will be no party to it in any way."—Home Herald.

A careful canvass of the prohibition situation in the State of Texas reveals the following facts: There are 146 counties wholly dry, 76 counties partly dry, and 27 counties entirely wet. Three-fourths of the territory of Texas is under prohibition, and two-thirds of the population. This is a splendid showing, but things will get better when State prohibition has been inaugurated. And the campaign has been begun that will bring this about in 1909.—Kentucky Issue.

Lady Colebrooke is a masterful woodcarver.

Lady Colebrooke, famous alike for her beauty, accomplishments and skill as a political hostess, possesses a wonderfully complete carpenter and wood working shop in her home, Lanarkshire, Scotland. She has not only turned out some clever pieces of work but has also taught some of the village girls on her husband's estate how to fashion wood with hammer and chisel. Lady Colebrooke is a clever sculptor too.

If you would like to feel some wise Gothic Critic, who "knew fine Coffees and Flavours," you will find a copy of Dr. Shoop's "Health Coffee" and serve it piping hot. It deceived Mrs. Lincoln, who believed in any one. And there is not a grain of real coffee in it. Health Coffee is made of green, pre-toasted grains, malt, nuts, etc. Malt is a grain which is milled and then dried, holding 1½ pounds 2½. Sold by The Spot Cash Grocery Co. 3441

It is not quite fair to judge any class by what is known of its most notoriously vicious representatives. It is somewhat unfair to judge so-called conditions by the known misdeeds of certain individuals. But it may not be unjust to say that the percentage of moral idiots or the New York Smart Set is growing high enough to cause respectable persons of thoughtful bent to wonder whether one is not stigmatized rather than honored by being welcomed into the circles exclusive to persons without money, but not at all to the person whose bank account will stand most rigid inspection than his, or her, morals. The misfortune to America is that foreigners mistake this misrepresentative, boodle-aristocracy for social life throughout the United States.—*Courier-Journal*.

BIRTHS

The Proud Maid.

Robert Barr, the English novelist, was entertained at dinner by a North Woodward avenue family. The men adjourned to the smoking room and the ladies lingered to give orders to the maid.

"Oh," said the young girl. "It was so good to have someone to wait on Mr. Barr. He is the first famous man I have ever attended."

And then in a burst of suddenly enthusiasm, she exclaimed:

"Perhaps some day I may be called to wait on Shakespeare."—Detroit Free Press.

"I'm afraid that you don't appreciate my composition," remarked the maid.

"No," answered Mr. Cumrox; "in all frankness, I must say I don't. It looks nice, though."

"If you're guessing?"

"Yes. I always have three guesses—why anybody wrote it in the first place, why anybody plays it in the second place, and why anybody listens to it in the third."

WHY SO WEAK?

Kidney Troubles May be Sapping Your Life Away--Mt. Sterling People Have Learned This Fact.

When a healthy man or woman begins to run down without apparent cause, becomes weak, languid, depressed, suffers backache, headache, dizzy spells and urinary disorders, look to the kidneys for the cause of it all. Keep the kidneys well and they will keep you well. Doan's Kidney Pills cure sick kidneys and keep them well. Here is Mt. Sterling testimony to prove it.

Samuel T. Green, of High street, Mt. Sterling, Ky., says:

"Doan's Kidney Pills were worth their weight in gold to me. That is my opinion and the following are my reasons: For a good many years I suffered with kidney trouble, brought on, I believe, by heavy lifting. The dull aching across the small of my back and the sharp pains if I stooped or straightened, made life anything but pleasant to me. There was also a very annoying and distressing urinary difficulty, particularly observable at night. I took all kinds of medicines, supposed to be good for kidney trouble, and doctored a great deal, but without obtaining any noticeable benefit until I procured Doan's Kidney Pills. The change the first box made in my condition was surprising, and I continued the treatment by taking another, when all symptoms of disordered kidneys disappeared and I felt myself cured."

For sale by all dealers. Price 50 cents. Foster-Milligan Co., Buffalo, New York, sole agents for the United States. Remember the name--Doan's--and take no other.

For Nervous, Over-worked and "Run Down" Women

Women in an exhausted, nervous state, due to over-work, continuous social functions or a general "run down" condition of health, often wonder why tonics and emulsions fail to benefit them. The reason is plain. Tonics and emulsions are good in their place, but they cannot build up the body until the nerves have been toned and quieted.

There's only one remedy that can restore health to women in this exhausted, nervous condition, because it acts directly upon the nerves.

Rexall

Americanitis Elixir

is the only remedy of its kind in existence. As its name implies, it's a specific for the peculiar exhausted nervous conditions resulting from the continuous rush and tension under which Americans live. This remedy fills an important gap in the line of medicines.

Rexall Americanitis supplies to the body just those elements which Nature cannot supply in sufficient quantities to meet the unnatural drain upon the nervous system.

Phosphorus in soluble form is the basis of this splendid nerve food. Thousands of women have been saved from nervous prostration by the prompt use of Rexall Americanitis. To all conditions of nervous derangement, exhaustion and debility it brings permanent relief.

THEY "PASSED THE BUTTER."
Brakeman's Happy Inspiration Met with Deserved Success.

"When I was connected with a certain western railway," says a prominent official of an eastern line, "we had in our engine a brakeman, who, for social motives, preferred to the road, was granted a month's vacation.

"He decided to spend his time in a trip over the Rockies. We furnished him with passes.

"He went to Denver, and there met a number of men who were working on the Colorado roads. They gave him a good time, and when he went away made him a present of a mountain goat.

"Evidently our brakeman was at a loss to know what to do with such a goat, as the express charges were very heavy at that time. Finally, however, hitting upon a happy expedient, he made out a shipping tag and tied it to the horns of the goat. Then he presented the beast to the office of the express car line.

"Well, this tag created no end of amusement, but it served to accomplish the end of the brakeman. It was inscribed as follows:

"Please Pass the Butter. Thomas J. Meekin, Brakeman, S. S. & T. T. Harper's Weekly.

WARNINGS FOR FLAT HUNTERS

Tenants of Building Get Even with Misery Agent.

There is an apartment house in New Brunswick, N. J., and the management is bound not to permit any tenant to day that can be saved until to-morrow. He buys but one load of coal at a time for this apartment house and never orders a second load until the first is all gone. Then it takes the coal dealer a full day to get it to him. Meantime the tenants burn gas and shiver. The agent also instructs the janitor to be extremely saving in the use of coal, in the furnace and in the boiler. The result is that some days the social water is only warm and on other days it is freezing.

The tenants have grown tired of this routine and several of them have moved out since the winter set in. Others are posting notices in the hall for the benefit of flat hunters. Two samples are as follows:

"Now we don't furnish hot and cold water. We furnish two kinds of cold water."

"Six days in the week shall thou have steam heat, and on the seventh day shall there be gas or freeze, as pleases thee most."--New York Press.

Hymn Singing Out of Style.

"The other morning," remarked the old-fashioned man, "I had to put the question to myself as to whether people ever sang hymns any more in New York outside of church. It came about through hearing a man singing a hymn. Kindly listen. The words and melody of which came floating down to my room through an airshaft. When I heard it I was reminded of the fact that in the five years I've lived here I never heard any one sing a hymn. And this man, our skipper here, or anywhere else, so far as that goes, save in church or on the street corner by the Salvation Army. And yet, although I never go to vaudeville performances, I have kept thoughts in mind, through the medium of that same airshaft, as to what is the latest thing in popularity. Old-fashioned hymn-singing, like old-fashioned

In a speech at Lexington President Patterson, of the State University of Kentucky, said that the Anglo-Saxon would eventually rule the world. That the purest Anglo-Saxon blood of America was found in Kentucky and Tennessee. While congratulating the State on the bill making Kentucky State College a University, he emphasized the fact that the University was developed as it should be, and more money would be required than ever. In addition to the direct appropriation of \$200,000 the University will receive about \$20,000 more from the State this year than before, making the annual income more than \$100,000.

Illinois State University receives \$1,500,000, Harvard, \$1,600,000 and Cornell, which is like the State University of Kentucky, a land grant school, has an annual income of \$1,900,000. President Patterson declared, however, that if the State and the people of Kentucky would do their duty he hoped to see the State University of Kentucky take the rank once held by old Transylvania College, which was in its day the Harvard of the West.

Sale or Purchase of Pooled Tobacco Illegal.

Tobacco growers were well pleased when it was announced that Governor Willson had on Friday signed the Cereclos Tobacco Bill, which provides severe penalties for selling pooled tobacco or for "knowingly buying pooled tobacco."

In signing it the Governor said:

"It may be that this measure, which is new and experimental, will not bear the fruit which its supporters promise and hope. It was adopted by an overwhelming majority. Very little remonstrance has been made to me. I leave the law questions, which seem likely to be raised under it, to the courts and in the hope that this bill may be useful, both directly and in some ways not directly withing its scope, I approve this bill."

Put Irish Flag Above the Stars and Stripes.

At Galveston, Tex., when Capt. Moore, of the British steamship Howthhead, of Belfast, Ireland, dressed ship in honor of St. Patrick, he put the green emblem above the Stars and Stripes. Not until he received a formal demand from the Collector of Customs accompanied by a threat to call the gunboat into service unless the order of the flags was reversed did the Irish skipper yield.

Cut Off His Nose.

At Frankfort, Adolph Kratzel, a butcher, by his own nose almost off. He has false teeth and is subject to fits. He had a fit. He shook his false teeth out of his mouth and they fell to the pavement just as he fell. Kratzel fell forward on his face, and his nose landed between the jaws of his false teeth, which were open on the pavement. His weight closed the teeth together and his nose was bitten almost off.

Predicts Bryan's Election.

Congressman Ollie James, in a speech in Congress, referred to Mr. Bryan as follows:

"He has never prostituted his sentiments for money," he said. "He has never sold the love of the American people for corporation gold."

The people of the country, he said, would "in just time do proper and good credit to the man who draws the naked sword in the defense of their rights. He believes that these people are going to elect for President that grand, that splendid, that matchless Democrat, William J. Bryan."

A great English preacher once said: "Total abstinence saves more money than all the savings banks of Great Britain; it prevents more crime than all the police of this metropolis; it prolongs more lives than all the doctors of England."

in Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Sherriff's Prevents Remedy was made a perfect, dependable prescription. Without any doubt, it is the best remedy for many cases of Rheumatism; but now, at last, it will find its way to America, where there are many cases of Rheumatism. Those sand-like granular cures will not do, as they do not penetrate and pass away under the action of this remedy as freely as does sugar when added to pure water.

James Spalding, a wealthy young farmer of Boyle county, was sent to the asylum on his own request, claiming that he was in the mood to kill his wife and children and would do so unless imprisoned. He admitted that he had burned stock barns to satisfy his mania.
